## How do I update my credit card information?

You can update your credit card information any time in your DoorDash account. If you would like to replace an existing card, you are required to first add a new card before removing the existing card. The last credit card used will remain the default credit card when placing your order.

Steps to update your credit card information:

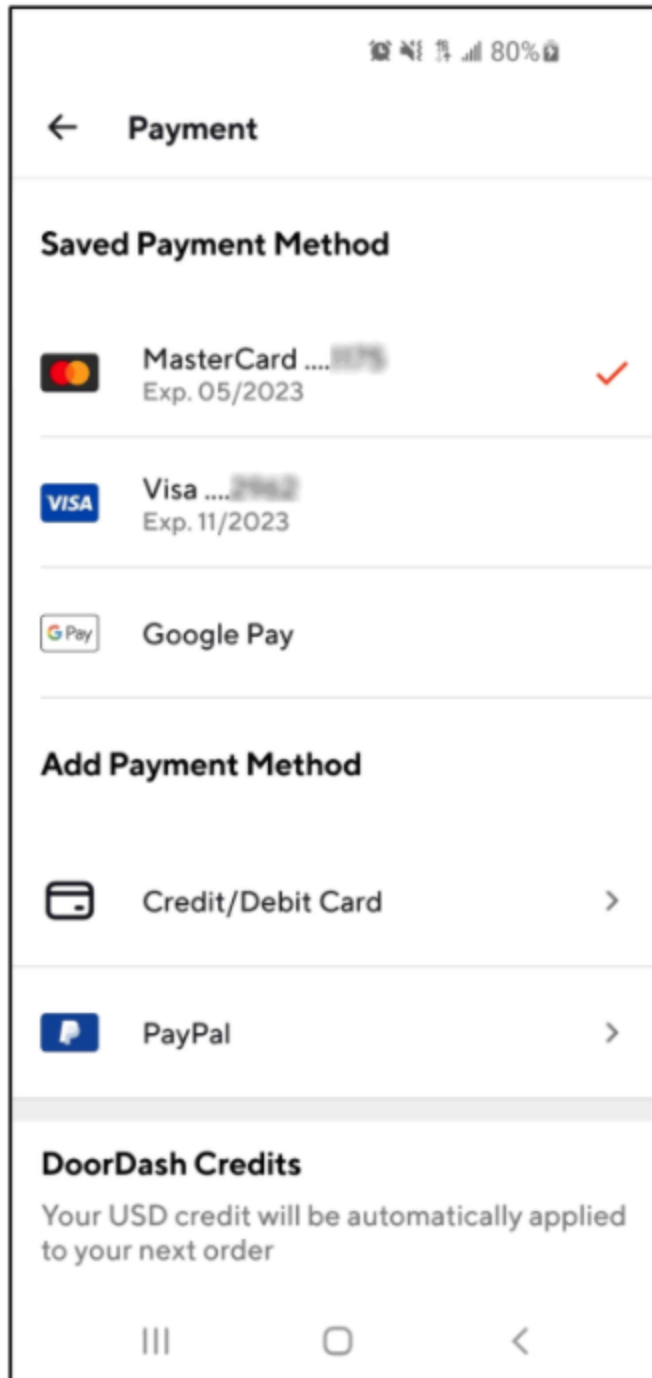

[Mobile app users](#)

[Desktop users](#)

### Mobile app users

1. Open your DoorDash app
2. Tap **"Account"**
3. Go to **"Payment"**
4. Tap **"Credit/Debit Card"**
5. Add the card information and tap **"Add Card"**
6. To remove a card, swipe left on the card and tap **"Delete"**
7. Tapping on an existing card will set that card as your default payment method

**Step 5 - Remove a Card:

## I want to add or update my payment method

[Back to Help](#)

You can update or add new forms of payment on Grubhub by visiting [Your Account](#).

1. **On desktop**, click on your name in the upper right-hand corner. **If you're signed in on a mobile device**, this menu is accessible from the initial icon in the top left-hand corner.
2. Click on the icon that says "Account" and then select "Payments" from the menu. Here you can view current payment options and add new credit cards.
3. To add a new credit card, select "+Credit Card" button and follow the prompts.
4. Need to update the info on a saved card? Need to update or remove a saved credit card? You'll need to delete the current card and add it again, just like you would a brand new card. To do this, select "Delete" next to the card you'd like to delete.

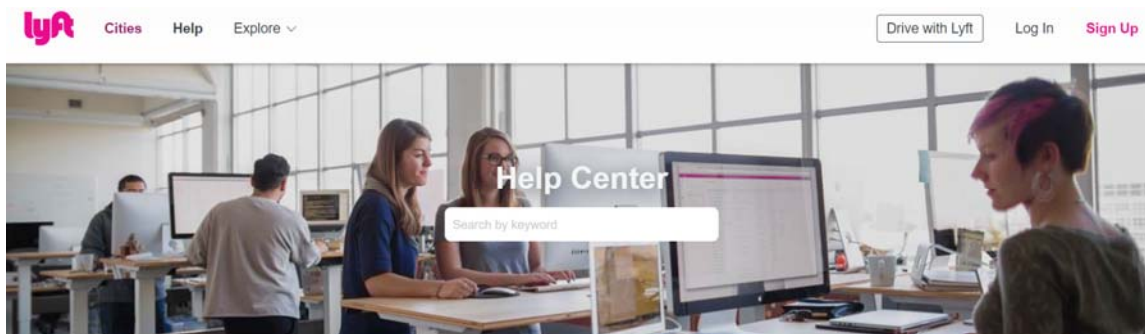

### If you're signed into our app:

1. Tap the "My Grubhub" icon at the bottom of the page.
2. Tap the gear in the upper right-hand corner to view the "Settings" menu.
3. Select "Payment."
4. Tap "Add a new payment" and follow the prompts for adding a new Credit card or linking a PayPal or Venmo account. (Please note PayPal or Venmo are only available when you order through the app.)
5. Need to update or remove a saved credit card? You'll need to delete the current card and add it again, just like you would a brand new card. Swipe left on the credit card entry to delete the card.

## How to add or update payment info

Passengers pay for Lyft rides exclusively through the app, but can tip drivers either in the app or using cash.

Skip to:

- [Add or update payment info](#)
- [Accepted payment methods](#)

## Add or update payment info

1. Open the Lyft app
2. Tap your photo in the top left
3. Tap "Payment" to add or update payment info. The "Payment" tab also lets you choose which payment method to use on your next ride.

You can also change your payment method **before** requesting a ride by tapping the payment method shown on the request screen.

After confirming your pickup and dropoff locations but before selecting "Request Lyft," you'll see the default payment method for the ride under the ride type and fare estimate. If you select the default payment method, you'll be able to change or add a payment method.

If a charge **fails for a ride**, you'll be asked to manually re-enter your payment info the next time you open the app. Once you've re-entered this info, the ride charge will process on this payment method. After, we'll email your ride receipt.

If your card is **about to expire**, we'll prompt you to update it.

## Accepted payment methods

Lyft works with major credit cards (like American Express, Visa, MasterCard, and Discover), debit cards tied to checking accounts, and prepaid cards. Passengers may also use PayPal (for iOS and Android users), [Apple Pay](#), and Google Pay.

Note: In order to add PayPal, Apple Pay, or Google Pay, passengers must also have a valid debit or credit card on file.

Lyft and its third party processors only process and store your payment card information in compliance with [Payment Card Industry Data Security Standards](#).

#### Accepted payment methods

With Ticketmaster, you have many ways to purchase your tickets. Select from American Express<sup>\*\*</sup>, Visa<sup>\*\*</sup>, MasterCard<sup>\*\*</sup>, Discover, Diners Club<sup>\*</sup>, Ticketmaster Gift Card<sup>\*</sup>, or a debit card with a major credit card logo. International cards are also accepted on our desktop site. The Ticketmaster app only accepts credit cards with a US or Canadian billing address.

<sup>\*</sup>Sorry, Diners Club and Ticketmaster Gift Cards can't be used to buy Fan-to-Fan Resale Tickets.

PayPal is an accepted payment method.

Payments can't be split between multiple cards.

P.S. Sometimes you need a specific card to buy certain tickets (e.g. Citi Cardmember presales, American Express Preferred Seating).

All ticket prices for events that occur in the United States are stated in U.S. Dollars. All ticket prices for events that occur in Canada are stated in Canadian Dollars.

The following cards are not accepted: Banamex Visa, Banamex Mastercard, Banamex Debito, Banamex Debito Visa, Banamex Debito Mastercard, Santander Visa, Santander Mastercard, Visa Emitida en Mexico, Mastercard Emitida en Mexico, and Santander American Express.

## Updating a payment method on your account

Adding and selecting a preferred payment method will allow you to request a ride. You can add payment methods including credit and debit cards, PayPal, Venmo, digital wallets and Uber gift cards. When a ride ends, your selected payment method is charged.

During a ride, use your app to check that your preferred payment method is selected. Swipe up from the bottom of the app and tap your desired payment method before the trip ends.

### ADD A PAYMENT METHOD

1. Select "Wallet" from your app menu.
2. Tap "Add Payment Method".
3. Add a payment method by manually entering the card info, scanning a card, or adding an alternative payment type.

### SCAN A CREDIT OR DEBIT CARD

1. To scan a card, tap the camera icon. Your phone may ask permission for the Uber app to use the camera.
2. Center your card in your phone's screen so that all 4 corners flash green. Cards with embossed letters and numbers are typically easiest to scan.
3. Enter the card's expiration date, CVV number, and billing ZIP or postal code.
4. Tap SAVE.

### MANUALLY ADD A CREDIT OR DEBIT CARD

1. Enter your card number.
2. Enter the expiration date, CVV number, and billing ZIP or postal code.
3. Tap SAVE.

### ADD A BANK ACCOUNT >

### UPDATE CARD INFO

You can edit a debit or credit card's expiration date, CCV number, and billing zip or postal code. If you have an Uber for Business profile, you can also change the profile your card is associated with by selecting Settings from your menu. Select Profiles to get started.

1. Select "Payment" from your app menu.
2. Select the payment option you'd like to update.
3. Tap the three dot icon, then tap edit.
4. Make changes, then tap "SAVE" when you're done.

While a debit or credit card number can't be edited, a card can be removed from your account and then added again as a new payment method. Read on to learn how.

### DELETE A PAYMENT METHOD

Your account must have at least one payment method at all times. If you wish to delete your only payment method, you'll need to add a new one first.

1. Select "Payment" from your menu.
2. Select the card you'd like to delete.
3. Tap the three dot icon in the upper right corner.
4. Tap DELETE, then confirm.
